Thinktech Attendance - Payroll User Manual (v1.0)

Welcome to the **Payroll Management System**. This guide will walk you through setting up, processing, and finalizing monthly payroll for your organization.

📅 Monthly Payroll Workflow

1. **Setup**: Define Salary Templates and Automation Rules.
2. **Assign**: Link Staff members to their Templates and Rules.
3. **Generate**: Create a Monthly Cycle and click "Compute".
4. **Review**: Verify attendance-based deductions and overtime rewards.
5. **Finalize**: Update status to "PAID" and export reports.

🛠️ Step 1: Configuration

1.1 Managing Salary Templates

To define the standard earning/deduction structure:

1. Navigate to **Payroll > Salary Templates**.
2. Click **Create Template**.
3. **Earnings**: Enter fixed components like Basic Salary, HRA, etc. (Set to 0 if amount varies per user).
4. **Deductions**:
    - **PF (Provident Fund)**: Set Employee & Employer contribution percentages (e.g., 12%).
    - **ESI**: Set percentages (e.g., 0.75% Employee, 3.25% Employer).
    - **Professional Tax**: Define slabs based on total earnings.
5. Save the template.

1.2 Automation Rules (Penalties & Bonuses)

Control how attendance affects salary automatically:

1. Go to **Settings > Automation Rules**.
2. **Late Punch-In**: Set buffers (e.g., 15 mins grace) and penalty slabs (e.g., 3 lates = 0.5 day deduction).
3. **Overtime**: Choose calculation type (Post-Payable Hours or Shift-End) and multipliers.
4. **Tenure Bonus**: Define loyalty rewards for employees based on months completed.

⚡ Step 2: Monthly Processing

2.1 Generating a Cycle

Each month requires a fresh "Cycle":

1. Navigate to **Payroll > Payroll Cycles**.
2. Click **Generate Cycle**.
3. Select the **Month** and **Year**.
4. The system will create draft salary lines for all active staff members.

2.2 Computing Net Salary

1. Open the Draft Cycle.
2. Click the **Compute All** button.
3. **The Magic Happens**: The system fetches attendance for the entire month, checks against your Automation Rules, calculates taxes (ESI/PF/PT), and derives the **Net Salary**.

✅ Step 3: Review & Disbursement

3.1 Verifying Payroll Lines

Click on any staff member's name to see the breakdown:

- **Attendance Summary**: Total present days, half-days, and unpaid leaves.
- **Rule Deductions**: See exactly why a penalty was applied (e.g., "Late 45 minutes").
- **Manual Adjustments**: You can add one-time Bonuses or Deductions to a line before finalizing.

3.2 Marking as Paid

Once reviews are complete:

1. In the Cycle view, select staff members.
2. Click **Update Status > PAID**.
3. Enter payment mode (Bank Transfer, Cash, etc.) and date.

📊 Step 4: Exports & Reports

- **Payslips**: Download professional PDF slips for individual staff.
- **Salary Register**: Export a complete Excel/CSV file of the month's payroll for bank upload or accounting.
- **Statutory Reports**: Separate views for PF/ESI contribution summaries.

> [!TIP] **Pro Tip**: Use the "Regenerate" button on an individual line if attendance records were updated late to refresh the math for that specific user.
